Features

Perfect for cool ash: The ash vacuum cleaner is usable for all ashes: BBQ, wood stoves and pellet stoves.

Blower function: For cleaning the bbq or outdoor stove there is a convenient blower function. With the blower function you will be able to clean those really hard to reach spots.

Easy to use lid: The engineered subtile clips hold the lid firmly at its place, while at the same time it allows the end user to easily remove the lid.

HEPA filter: The ash vacuum cleaner contains a HEPA filter. This filter is washable.

Easy to use suction tube: The suction tube is with it's twist on/off function easy to connect or disconnect.

Big tank: You don't want to empty the tank everytime you use the product. So this ash vacuum cleaner has a big tank of 12 liter.

Fire retardent HEPA filter: The ash vacuum cleaner contains a fire retardent HEPA filter. This filter is washable.
